

Year 4

Spring Targets

<p>I can read 3 digit numbers. <i>For example:</i> 342 <i>Three hundred and forty-two.</i></p>	<p>I can partition a 2 decimal place number. <i>For example:</i> 2.45= $2 + 0.4 + 0.05$</p>	<p>I can order numbers with 1 decimal place. <i>For example:</i> 5.2, 5.4, 5.7</p>	<p>I can count in 0.2s, 0.5s and 0.25s <i>For example:</i> 0.2, 0.4, 0.6, 0.8</p>	<p>I can count along even when there are no number lines. <i>For example:</i> 20.....30</p>	<p>I say multiples of 11 from 1 to 5. <i>For example:</i> $1 \times 11 = 11$ $2 \times 11 = 22$</p>
<p>I can say multiples of 11 from 1 – 10. <i>For example:</i> $7 \times 11 = 77$ $8 \times 11 = 88$</p>	<p>I know the 11 times table in any order. <i>For example:</i> $6 \times 11 = 66$ $9 \times 11 = 99$</p>	<p>I know the fact families for the 11 times table. <i>For example:</i> $4 \times 11 = 44$, $11 \times 4 = 44$ $44 \div 4 = 11$, $44 \div 11 = 4$</p>	<p>To know the times tables and number families of tables 2 to 10. <i>For example:</i> $4 \times 3 =$ $6 \times 7 =$</p>	<p>I can add tenths. <i>For example:</i> $0.3 + 0.4 = 0.7$</p>	<p>I can double 3 digit multiples of 100. <i>For example:</i> Double 400 is 800</p>
<p>I know half of 3, 5, 7, 9 as decimals. <i>For example:</i> half of 3 = 1.5</p>	<p>I can multiply whole numbers by 100. <i>For example:</i> $13 \times 100 = 1300$</p>	<p>I can divide multiples of 10 by 10. <i>For example:</i> $130 \div 10 =$</p>	<p>I can divide whole numbers by 10 or 100 giving decimal answers. <i>For example:</i> $135 \div 10 = 13.5$</p>	<p>I can write Smile Multiplication fact families. <i>For example:</i> $30 \times 7 = 210$ $210 \div 7 = 30$</p>	<p>I know when to add 2 multiples together. <i>For example:</i> 11×32 $1 \times 32 = 32$ $10 \times 32 = 320$</p>
<p>I can solve any 3 digit + 3 digit sum. <i>For example:</i> $385 + 867 =$</p>	<p>I can take 100 from any 3 digit number. <i>For example:</i> $682 - 100 =$</p>	<p>I can solve any 1 digit x 2 digit calculation. <i>For example:</i> $7 \times 86 =$</p>	<p>I can combine 2 or more tables facts (2, 3, 4, 5) to solve division. <i>For example:</i> $68 \div 5 =$</p>	<p>I can find the missing piece to 1000. <i>For example:</i> $417 + ? = 1000$</p>
