

<p><b>I can read 9, 8, and 7 digit numbers</b>  <i>For example:</i>            389,241,075            67,345,452            2,864,409</p>	<p><b>I can understand the value of numbers with two decimal places (ordering numbers).</b>  <i>For example:</i>            13.45 1.34</p>	<p><b>I can count in -2s and -5s.</b>  <i>For example:</i>            -32, -33, -34            -25, -30, -35</p>	<p><b>I have rapid recall of all tables up to 12 and their fact families.</b>  <i>For example:</i>  <math>6 \times 4 = 24</math> <math>4 \times 6 = 24</math>  <math>24 \div 4 = 6</math> <math>24 \div 6 = 4</math></p>	<p><b>I can use my times tables knowledge to write related facts.</b>  <i>For example:</i>  <math>60 \times 40 = 2400</math>  <math>2400 \div 40 = 60</math></p>	<p><b>I understand square numbers.</b>  <i>For example:</i>            1,4,9,16,25,36,49,64,81,100...</p>
<p><b>I can read numbers with decimal places.</b>  <i>For example:</i>            1.342</p>	<p><b>I can partition a number with two decimal places.</b>  <i>For example:</i>  <math>45.39 = 40 + 5 + 0.3 + 0.09</math></p>	<p><b>I can multiply decimals by 100.</b>  <i>For example:</i>  <math>1.3 \times 100 = 130</math></p>	<p><b>I can divide decimals by 100.</b>  <i>For example:</i>  <math>132.3 \div 100</math>  <math>435.6 \div 100</math>  <math>34.7 \div 100</math>  <math>11.36 \div 100</math></p>	<p><b>I can find fractions of amounts.</b>  <i>For example:</i>  <math>5/8</math> of 32</p>	<p><b>I can change mixed fractions to proper fractions and vice versa.</b>  <i>For example:</i>  <math>1 \frac{5}{6} = 11/6</math></p>
<p><b>I can add fractions.</b>  <i>For example:</i>  <math>5/8 + 1/4 =</math></p>	<p><b>I can add any number to 1 decimal place.</b>  <i>For example:</i>  <math>3.4 + 2.5</math></p>	<p><b>I can solve subtractions with 3 digits numbers.</b>  <i>For example:</i>  <math>242 - 159</math></p>	<p><b>I can solve subtractions with 3 digits as money.</b>  <i>For example:</i>  <math>\pounds 6.28 - \pounds 2.35</math></p>	<p><b>I can multiply 2 digit numbers by 2 digit numbers.</b>  <i>For example:</i>  <math>38 \times 69</math></p>	<p><b>I can multiply 1 digit numbers by 3 digit numbers.</b>  <i>For example:</i>  <math>8 \times 123</math></p>
<p><b>I understand prime numbers.</b>  <i>For example:</i>            2,3,5,7,11,13,17,19...</p>	<p><b>I can divide using short division.</b></p>	<p><b>I can subtract fractions.</b>  <i>For example:</i>  <math>11/2 - 1/3 =</math></p>	<p><b>I can do Smile multiplication for hundredths.</b>  <i>For example:</i>  <math>3 \times 0.07 = 0.21</math></p>	<p><b>I can multiply fractions by whole numbers.</b>  <i>For example:</i>  <math>3/4 \times 5 =</math></p>	<p><b>I can solve word problems involving one and two steps.</b></p>
