Subject: Sketch Up Home learning for Year 5

Dear Year 5 Parents,

One of our home learning tasks this week was to create a shed on Sketch Up. The home learning sheet suggested downloading Sketch Up for free online. A few parents have found it tricky to find this download, and on further investigation it does appear that Sketch Up no longer allow you to have a free download, which is a shame as it's a brilliant resource!

There is however an option to download a free trial. The link can be found here:

<https://www.sketchup.com/download?sketchup=pro>

Choose 'I plan to use Sketch Up for personal projects', then you will need to link it to a google account.

If your child has been unable to complete their home learning so far and would like some extra time, please feel free to hand this home learning in on Monday instead of Friday. If you are still struggling to download the software, you could either suggest your child chooses a different home learning, or they can come to 5F during lunchtime on Friday or Monday to complete this home learning on one of our netbooks instead.

I apologise for the inconvenience caused,

Kind regards,

Miss Francis
