

Sports Day Logic Puzzle

At the school sports day, the children had a long jump competition.

Adele jumped 4.54m

Zack jumped $\frac{1}{2}$ m further than Casper.

James jumped 15cm further than Adele.

Jannath jumped 0.6m further than Mary.

Molly jumped 23cm further than James.

Amina jumped $\frac{3}{4}$ m further than the 2nd place child.

Shannon jumped $\frac{1}{4}$ m less than Molly.

Sharon jumped 0.8m further than Shannon.

Casper jumped 0.15m less than Jannath.

Mary jumped 40mm less than Sharon.

So, can you use the clues to write down who won and the other positions?
