### **Good makes of clarinets:**

Yamaha

Buffet

Jupiter

### **Good makes of saxophones:**

Your child will need an alto saxophone or a Trevor James Alphasax. Please note that the Alphasax is a good choice for small beginners as it is much lighter than an alto saxophone due to its reduced keywork. The only down side is that you can only take up to ABRSM grade 3 on this instrument and then would need to buy an alto saxophone to progress further.
